Privacy Policy

This privacy policy describes how the Nanobot bot ("we", "us", or "our") collects, uses, and protects personal information from users ("you") on the Discord platform.

Information Collection and Use

The only information we collect from users is Discord profile information, server activity timestamps and on-chain analytics. This information is used solely to improve the bot's code and increase user satisfaction. We do not sell or share this information with any third parties. The data is securely held and accessible by one central authority, the bot owner.

Users have direct access to all of their user data through slash command interactions. If the bot is offline, or if a user would like to access their non-user-specific data, they can contact us at nanogiveaway@outlook.com.

Security

We take appropriate security measures to protect personal information from unauthorized access, alteration, disclosure, or destruction. The bot is hosted on secure servers and is maintained by a team of trained professionals.

User Rights

As a user of our bot, you have the right to request access to or deletion of your personal information. If you would like to make such a request, please contact us at nanogiveaway@outlook.com.

Updates

We may update this privacy policy from time to time by posting a new version on this page. We will notify you of any significant changes to this policy by sending a notification through the bot's slash command interactions.

Contact Us

If you have any questions or concerns regarding this privacy policy or our use of your personal information, please contact us at nanogiveaway@outlook.com.
